a step-by-step tutorial
Window Sheet Card

Begin with a piece of 4" x 6" Window Sheet. Score at 5 ½" and using bone folder, really burnish the score line. Cut a piece of Flirty Flamingo card stock to 4" x 5 ½" and using Tear and Tape, adhere the folded over piece of Window Sheet to the card stock - this is the back of the card.

Adhere a piece of 4" x 2 ¾" Flirty Flamingo card stock to the top half of the card front (adhering it to the Window Sheet) and another piece of 4" x 1 ¾" Flirty Flamingo card stock to the bottom half.
